

Wisconsin Department of Veterans Affairs

Tony Evers, Governor | Mary M. Kolar, Secretary

December 17, 2020

Dear King Members, Friends, and Family:

The holiday season is upon us and I hope this letter finds you healthy and safe.

As I mentioned first doses of the COVID-19 vaccine are making their way across the country and Wisconsin and frontline health care workers at hospitals are beginning to receive their first doses of the vaccine. As long-term care residents and workers are high on the priority list for the vaccine, we are working as quickly as possible to put in place the process for bringing the vaccine to campus and will have more information for you as soon as possible.

While this is good news, remember, we all still must continue to do our part to stay safe by limiting gatherings, maintaining six feet of distance from others when going out, wearing a mask, and washing hands regularly.

Since my last update on Thursday (12/14), one employee at King who works in a non-residential building has tested positive for COVID-19 and two have recovered. There are no new positive cases among members. Currently there are nine active positive cases of COVID-19 on campus (one member, eight employees).

Beginning in January 2021, we will be moving to email and text notifications, instead of mailed paper letters, as our primary way of sharing these updates. If you haven't yet added yourself to our email and phone mailing list, please do so now at www.WisVetsEmail.com. If you would like to continue to receive printed and mailed letters, please contact Barb Anderson at (715) 256-5022.

Sincerely,

A handwritten signature in black ink that reads "T. Servatius".

Tammy Servatius, Commandant
